

# ACHIEVE OMNI-SOURCE DATA READINESS

▲ **Screenshot:** InFocus simplifies your understanding of the SAP Datasphere migration process in total, with intuitive dashboards for core deliverables such as extant BW System state.

▲ **Graphic:** 6 readiness deliverables in 6 weeks afford you the ability to migrate with speed, confidence, and ease.

SAP Datasphere, the next generation of SAP Data Warehouse Cloud, enables every data professional to deliver seamless, scalable access to mission-critical data.

With InFocus, Sierra's Datasphere Assessment Tool, running through the ABAP Cloud on SAP's Business

Technology Platform (BTP), we'll deliver a no-cost migration framework in 5 days, detailing Sources, Modelling Objects, ETLs, Reports, and Plans you'll need to address. This free Assessment is step one toward a comprehensive 6-Week Migration Program.

Trust Sierra, SAP's BTP App Innovation Station, to help you achieve Datasphere advantages quickly, affordably, and confidently.
